2025 Partner Work

- Habitat for Humanity will continue construction of their 147 mid-density affordable housing units this summer, with the first units coming for sale this year. For more information on housing at The Heights please visit: <https://theheightshousing.com/>
 - Xcel Energy will continue work on their new service center, with plans to be operational by 2027. View [Xcel's commitment to The Heights on our website](#).
 - Ever-Green Energy will continue the installation of their district geothermal energy system in The Heights. The aquifer thermal energy storage system will be one of the first in the state. For more information about this work please [visit their website](#), or check out this [informational video](#)!
 - The Saint Paul Parks and Recreation Department is planning the development of a [5-acre park at The Heights](#) which will serve the community within and around The Heights Development.
 - Private utility companies will continue to work within the site to build electric and fiber-optic infrastructure to support the development.
